DISCOVER WILLOWFIN ISLAND

Willowfin is a peaceful island known for its green hills, unusual wildlife and traditional fishing villages. Most visitors arrive by ferry from Northbay. The crossing takes approximately fifty minutes, although rough weather can make the journey longer.

Where can you stay?

Seabird Guesthouse offers comfortable rooms and breakfast prepared with local ingredients. It is close to the harbor and is ideal for visitors who prefer convenient accommodation.

Pinecone Campsite lies beside a quiet woodland. It has showers and a shared cooking area, but guests must bring their own tents. Open fires are forbidden.

What can you explore?

The island's most famous landmark is the Moonbeam Lighthouse. Visitors can climb 120 steps to its viewing platform. On clear days, the mainland is visible in the distance.

Wildlife enthusiasts can visit Pebble Bay, where grey seals often rest on the rocks. Visitors must observe them from a safe distance and must not feed them.

For a more adventurous experience, travelers can follow the Eagle Trail. This six-kilometer route passes through a valley and ends at the island's highest point. The path becomes slippery after rain, so suitable footwear is essential.

Useful local information

The final return boat leaves at 6:30 p.m. There is no cash machine on the island, but most cafés accept bank cards. Mobile phone reception is weak near the western cliffs. Visitors are encouraged to take their rubbish with them and protect the island's natural environment.

1. What type of transport connects Northbay with Willowfin Island?

2. Why might the crossing take more than fifty minutes?
